BRAIDSPLACE

LIVING HAIR ART

Visual performance | 20 minutes
7-10 models

TANZANIA

APRIL 2027

Hair becomes a living artwork: it enters the stage, moves with the body and comes alive.

Original hair creations, fashion and movement form a sequence of living tableaux under the artistic direction of Florence Prévot.

BRAIDSPLACE AFRICA TOUR

Proposal for independent arts venues in Tanzania

Florence Prévot | braidsplace.za@gmail.com

A PERFORMANCE IN MOTION

THE ARTISTIC PROPOSAL

Living Hair Art brings together artistic hairstyling, visual art, fashion and movement. Each hairstyle becomes an artwork revealed through the body and silhouette of a model. The audience encounters a succession of living tableaux rather than a conventional runway show.

FORMAT

Approximately 20 minutes on stage with 7 to 10 models. The work can be presented as a standalone performance and, where space allows, accompanied by a display of selected photographs.

TANZANIA - APRIL 2027

Following an invitation to participate in the Cape Town International Jazz Festival in March 2027, BRAIDSPLACE is exploring a small number of further presentations in Tanzania. Dates and the local format will be agreed with each host.

A PERSONAL CONNECTION

Tanzania inspires me deeply. I would love to discover its creative scene through an open artistic exchange and to build a presentation that speaks to the place and the people hosting it.

LOCAL CREATIVE COLLABORATION

I hope to meet and collaborate with Tanzanian designers and hairstylists. Together, we could create an exchange around hair, silhouette and movement, with local models and a format shaped with the host venue. The collaboration would be discussed and agreed together.

HOSTING CONVERSATION

Let us discuss an April date, a performance or exhibition space, local collaborators and models, production and technical support, an artist fee or in-kind contribution, and any venue costs. A written expression of interest can support funding applications.
